

BUILD YOUR AI CEO — THE COMPLETE SETUP GUIDE

Work Space Path

Build Your AI CEO: The Complete Setup Guide

MODULE 1 — DOWNLOAD PACKET

The exact path we'll use on a Mac will look something like this:

```
/Users/YourName/Documents/workspace.
```

On Windows it'll be something like:

```
C:\Users\YourName\Documents\workspace.
```

We'll configure that path precisely in Module Three when we set up OpenClaw.
